

# Rechenschieber Slide Rules

**A.W. Faber**  
**A.W. Faber-Castell**

Modelle, Typen, Skalen  
Models, Types, Scales

**V 8.0**

**Peter Holland**

## **Every slide rule ever made by A.W. Faber and A.W. Faber-Castell**

This digital edition V 8.0 describes all the slide rules manufactured by A.W. Faber and A.W. Faber-Castell. It now contains information about the company, every type and series, the model suffixes, the scales, the cursors, the cases, the instructions, the patents, the materials used and images provided by the company from their archive. It also provides detailed clues on how to identify and date every slide rule made by this manufacturer.

So this edition has been restyled and reformatted for A4 display/paper size. Moreover it includes many improvements and even some new finds. In particular the section on Specially Commissioned Slide Rules and the chapter on slide rules for resellers and competitors have been extensively revamped and extended. Moreover it includes many improvements and even some new finds – including a new and previously unknown series.

- dual language
- all models
- all scales
- all information

Compiled in co-operation with:

- Dieter von Jezierski
- Günter Kugel
- David Rance

- 122 pages
- A4 format
- Free to Download
